CARITAS COACH EDUCATION PROGRAM®

Join the growing number of Caritas Coaches® worldwide,
who are leaders in restoring the heart in health care.

The **Caritas Coach Education Program® (CCEP)** is a unique six-month online educational program offered by the Watson Caring Science Institute (WCSI) and based on **Dr. Jean Watson's Caring Science/Theory of Human Caring**.

CCEP is structured as an experiential, aesthetic, personal, ethical, and intellectual journey designed to prepare clinicians, educators, caregivers, and leaders with knowledge, experience, and informed practices of Caring Science.

The CCEP faculty will guide and support learners through interactive online instruction, dynamic inquiry, authentic dialogue, and group meetings. Individual personal and professional life goals are honored through the collective journey of the Caritas Coach® learning experience.

As a Caritas Coach, you will return to your setting with new insight, intellect, and caring literacy to give voice to Caring Science, as a translator of the theory, and to live out Heart-Centered-Caritas Practices for self, other, and systems.

CCEP has given me the language to describe what I do as a nurse to care for my patients on a day to day basis. It's given me a voice. It's empowered me through an unbreakable deep rooted inner human connection. ~Paras Barnett, Caritas Coach
