

**Watson Caring
Science Institute**

Watson Caring Science and Middle Eastern Nurses and Partners in Human Caring Conference: Caring Science: Transcending Culture and Boundaries

This two-day professional intellectual and experiential human caring program will address global critical, clinical nursing issues in our everyday practice. The sessions include universality of human caring, ethical dilemmas, overcoming burnout, end of life care and other topics deepened by theory, philosophy and practices of Caring Science.

This gathering is convened by **Dr. Jean Watson** and **Watson Caring Science Institute**, an international non-profit organization in the USA; this event is held in collaboration with nurses in the Middle East and Healing Healthcare Systems.

Space is still available but limited,
so register soon!
