| <b>2:25 pm – 2:30 pm</b> | <b>Closing</b>  |

The Midwest Consortium is a “local grass-roots forum, that emerged from the Watson Caring Science Institute’s International Caritas Consortium (ICC), to explore the philosophy, ethics, and practices of Caring Science.” We lovingly invite you to share, explore and sustain human caring practices within yourselves and throughout your organizations, in all roles and workspaces. It is with deep gratitude that you have chosen to be with us as you live, learn and practice human caring theory.
