## Become a Watson Caring Science Institute (WCSI) Global Affiliate An Invitation

Hello and welcome to Watson Caring Science Institute's (WCSI) **Global Affiliation** program. First and foremost, we are here to support nurses, educators, and other caring professionals, and our first responsibility is to uphold and uplift the profession. We do this because nurses are critically important to the health and healing of all people, including the nurses themselves, and the profession. The discipline of nursing deserves well designed, and well executed support. We also do this because, as Dr. Jean Watson says, "nursing is the paradigm exemplar of caring, the most mature healing practice in the world."
